Designated Person

Fred T. Boyle

FROM:

Asbestos in Schools under AHERA

RE:

This will follow-up to our recent memos concerning asbestos in the Tilton School plus two work orders concerning floor tiles in the Whitter and Hunking Schools sent by Rick Reaney

We think we can combine all three projects under one abatement project and save two mobilization costs and hopefully come in under ten thousand dollars for the work.

As it stands now we propose doing asbestos abatement as shown on the attached sheet. If this does not meet with your approval, please let me know.

We will prepare the documents and be in touch with Mr. Goldfield for bidding.
