### 2019-2020 (FY20) Full-Day Kindergarten Tuition Fee Sliding Scale

- To determine the district's sliding fee scale (**Column C**), start with the district-set maximum Annual Tuition (no more than \$2,000), and write that number in the top of **Column B**.
- Then for each row, use the formula in **Column B** to determine the maximum *Annual* amount that can be charged (and write a number equal to or less than that amount in **Column C**), for each family income level row.
- Then indicate the *Monthly* tuition amount in **Column C** (generally Annual divided by 10). Note that additional income levels may be added, consistent with the scale.
- To determine a family's eligibility for reduced tuition:** First, calculate a family's gross monthly income (to convert monthly income from weekly income, multiply by 4.33; to calculate monthly income from bi-weekly income, multiply by 2.17).
- Next, find the **Column A** with the family's size written at the top. Then look down the column and find the correct monthly income range; then look across the row to **Column C** to find the amount the district charges that income level.

**Income Eligibility Levels**

Income Eligibility Levels						Sliding Fee Scale Formula		District's Sliding Fee Scale	
COLUMN A(1) % State Median Income (SMI)	COLUMN A(2) Family of Two <i>Monthly</i>	COLUMN A(3) Family of Three <i>Monthly</i>	COLUMN A(4) Family of Four <i>Monthly</i>	COLUMN A(5) Family of Five <i>Monthly</i>	COLUMN A(6) Family of Six <i>Monthly</i>	COLUMN B Max. Annual Tuition (T): \$		COLUMN C Fee Per Income Level	
						Formula to calculate the fee scale:		Annual	Monthly
Up to 25%	\$0 - \$1,504	\$0 - \$1,858	\$0 - \$2,212	\$0 - \$2,566	\$0 - \$2,920	Must be free		\$0	\$0
