Re: Removal of Identified ACM  
Consentino School Greenhouse

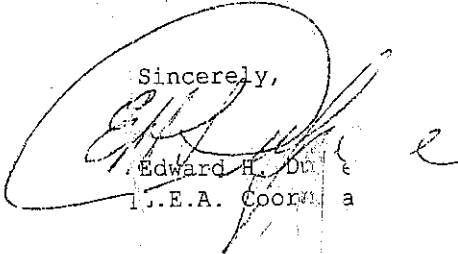

Dear Frank:

I spoke with Roger Young about the removal of the transite board in the greenhouse at Consentino School and he agreed that we use A.S.A.P. to remove it. Please have A.S.A.P. schedule the removal for late afternoon or on an early dismissal day to minimize disturbance to the students and faculty.

Also, please have them forward to me, the required documentation for the removal and disposal. I will notify you of the purchase order number for this job when I obtain one.

If you have any questions, please call me.

Sincerely,

  
Edward H. Dunne  
I.E.A. Coordinator
