**Re:** Nettle Middle School 3-Year Re-inspection

---

A complete gut renovation was performed at the Nettle Middle School. The new school was completed in 2000. A letter from the architect and/or contractor stating that to the best of their knowledge no ACM was used in the construction at the Nettle Middle School should be obtained. Once this letter is obtained, it should be placed in both the master AHERA file and the individual school file. In addition, a copy should also be submitted to the EPA's regulation office to verify that this school can be removed from the AHERA inspection list.
