

Haverhill Public Schools - School Health Services

Medical Information for Kindergarten Registration

Per Massachusetts Immunization Law and School Health Regulations, the following are required for Kindergarten enrollment:

1. Physical Exam within one year of school entry
2. Vision screening for far vision
3. Results of the most recent serum lead test done after 9 months old
4. Physician verified evidence of immunizations:
 - a. **Hepatitis B** - 3 doses
 - b. **DTP/TD/Td** - 5 doses DTP (unless 4th dose administered after the 4th birthday, then only 4 doses are required)
 - c. **Polio** - 4 doses (unless the 3rd dose is administered after the 4th birthday, then only 3 doses)
 - d. **MMR** (Measles/Mumps/Rubella) - 2 doses of the combination MMR vaccine, or 2 doses of each component
 - e. **Varicella** - 2 doses of the Varicella (Chicken Pox) vaccine, or physician documentation of child having had the Chicken Pox disease.
5. TB test may be required for immigrants of some foreign countries, those with extended recent travel, and anyone at risk, as defined by the attached CDC guidelines.

If your child has special health care needs, please inform the Registration Clerk and indicate when filling out medical history paperwork. Conditions that involve special health care needs include, but are not limited to, the following:

1. Medication management during the school day
2. Diabetes
3. Life-threatening allergy
4. Asthma
5. Seizure disorder

You will be referred to a nurse to discuss any special health care needs and will be provided with the necessary forms and information. An Individual Health Plan may also be developed to assure the appropriate and safe care of your child.

The nursing staff reports to work one day before school begins. Every effort will be made to meet with parents prior to the first day. Once your child is assigned to a school, you are strongly encouraged to reach out to the building-based nurse to plan for the fall. School nurses may be reached by calling a school's main office.
