## Area of Expertise

Ms. Campbell has more than 35 years of experience managing projects within the construction industry, with a particular emphasis on public safety projects. As a seasoned project manager, she excels in overseeing public projects, energy-efficient buildings, and cost-effective design solutions. She is adept at fostering client relationships and delivering innovative project solutions that seamlessly blend aesthetic appeal and functional requirements.

Angela's specialties include custom design, 3D modeling using various software programs, and BIM-based projects. She is particularly skilled in high-end, unique design solutions, net-zero energy buildings, and fast-track project delivery. Throughout her career, Angela has demonstrated a strong commitment to sustainability and community engagement, working with net zero and LEED consultants to develop energy-efficient strategies and actively participating in community outreach and development projects. Her technical proficiency, coupled with her strategic business development and client coordination skills, make her a valuable asset in the industry.

## Relevant Experience

### City of Haverhill – Consentino Middle School – Haverhill, MA

Project management services for the construction of the new \$160 Million middle school building, which will be located adjacent to the existing school in the current field. Demolition and sitework will follow, after completion and move-in to the new school. The Consentino Middle School consists of classrooms, offices, science labs, gymnasium, cafetorium, art and music rooms, and technology rooms.

### Town of North Attleborough – North Attleborough High School – North Attleborough, MA

Project management services for the new \$240 Million North Attleborough High School. *Work with previous firm*

### City of Bath – New Fire Station Headquarters – Bath, ME

Project management services for the new \$16.5 Million fire station headquarters.

### City of Worcester – South Division Firehouse – Worcester, MA

Project management services for the design and construction of Worcester's new South Division Firehouse Facility. The existing South Division Firehouse is proposed to be replaced and relocated to 25 Madison Street.

### Town of Westborough – Regional Emergency Communications Center – Westborough, MA

Project management services to oversee the design and renovation of a building intended to be used as the Regional Emergency Communications Center.

### Town of Millbury – Millbury Fire Headquarters – Millbury, MA

Project management services for the new \$15 Million Millbury Fire Headquarters. The 22,000 gsf facility was completed in 2023. *Work with previous firm*
